A new comment has been submitted at socotransmission.com.

COMMENT

Meeting Attended:

Alamosa Scoping Meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Water Resources (Floodplains, River Crossings), Historic and Cultural Sites, Radio or Television Interference, Health and Safety, Project Purpose and Need, Biological Resources, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Residential

Comment:

I urge the use of buried transmission lines. This will eliminate all of the aesthetic conflicts and also allow for more efficient point to point alignments rather than circuitous routes and right angles.

I-257-001: Project Alternatives (In Review)

Your email/letter/comment from has been received and your comment noted. A range of reasonable project alternatives and mitigation measures including the no action alternative will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at

<http://www.usda.gov/rus/water/ees/ea.htm>.
